About Me

Skilled System Administrator focused on performance optimisation and technical improvements with an understanding of cost-effective decision making and usability. Experienced System Administrator with 2 years background in System Administration and Information Technology. Progressive experience in the field marked by continuous contributions above and beyond requirements.

WORK EXPERIENCE

Sep 2023 - present

Junior Payment System Administrator

System Administration

- Responsible for managing and maintaining the bank's digital payment platforms and infrastructure. This includes ensuring the availability, reliability, and security of systems such as ATM switch, POS, mobile banking, internet banking, card management systems, and interbank payment gateways.
- Monitored system performance using advanced tools, proactively identifying and resolving issues.
- Worked with internal support teams, outsourced managed service providers and suppliers for comprehensive end-user setup and support.
- Provided end-user support and training, enhancing staff productivity through the efficient use of technology.
- Operated server management tools for patching, monitoring and backup activity.
- Analysed system logs and user reports to diagnose and swiftly resolve complex technical problems.
